ARE YOU A DESIGNER OR A CONTRACTOR?

We also serve remodelers, cabinet makers, custom builders, facilities managers, and plumbers.

Cutting Out the Middlemen

We realised that well-made designer appliance, sanitary, and furniture were unjustifiably expensive due to the cumulative costs of middlemen, warehouses and shopfronts. So we remove everything that is not essential and extend the savings for you, for **up to 40-50% compared to local retail prices**

COST COMPARISON

EuroHomeDirect cuts out the middle men, retail markups, warehouses and shopfronts

HOW WE HELP YOU RUN YOUR BUSINESS BETTER

Online Tools

Browse products, obtain instant quotes, save carts, and request estimates from our website

Shipping/Logistics Support

We'll make sure products get delivered on-time, safely, and in one piece

WHY EUROHOMEDIRECT?

Designers and Contractors often tell us how they're tired of waiting at the supply store counters and they're fed up with limited product selection at local showrooms.

When you talk to your EuroHomeDirect account manager, you'll see why designers & contractors love working with us. Our team is filled with creative brains and smart problem solvers: real, genuine product experts who have digested 100's of hours of training from the industry's top brands. Need help tracking down a special-order item? We'll take care of you.

After you placed the order, our warehouses in Germany & UK will promptly process and ship your orders worldwide. We also provide professional installation services as an add-on to your purchase in Hong Kong should you require.

EHD Smart Switchable Glass

EHD Smart Switchable Glass is an industry-leading switchable glass solution.

Our cutting edge technology allows you to switch from transparent to translucent and vice-versa at a tap of your fingertip.

How Smart Glass works

A simple On/Off mode switches the EHD Smart Switchable Glass from transparent to translucent. In the transparent mode, the smart switchable glass appears just like any other conventional glass panels providing unobstructed view and daylight penetration. In translucent mode, the smart switchable glass acts as an electronic blind providing privacy and security, while still allowing daylight penetration.

Highest Quality & Durability

Durability is ensured with over 70,000 hours of non-stop testing

Energy Saving

Energy saving is achieved with UV blockage of 98%, allowing occupants to enjoy a comfortable ambient while conserving energy.

Made to Order

Made to order custom panel sizes for perfect fitment

Maximum single panel size 1.9 x 4.3 metres.
Multiple panels can be joined to create glass walls & partitions.

ON

OFF

Appliances are sourced from
U.K. to match HK and SGP specs
Sanitary is sourced directly from
Germany
